

May 21-10:58 AM

Codominant - both phenotypes show up  
Blood typing

	A	A
B	AB	AB
B	AB	AB

white + brown  $\rightarrow$  white/brown spots

Incomplete - blend of both phenotypes. Neither allele is dominant  
flowers - red + white  $\rightarrow$  pink

May 21-11:06 AM

Multiple Alleles - > 2 alleles for a trait - still 1 gene  
 rabbit color  
 blood typing  $\rightarrow$  A, B, O

Polygenic - > 1 gene controls a trait  
 skin color, hair color, height

May 21-11:09 AM

Sex-linked Inheritance - traits on X chromosome

♀ - XX

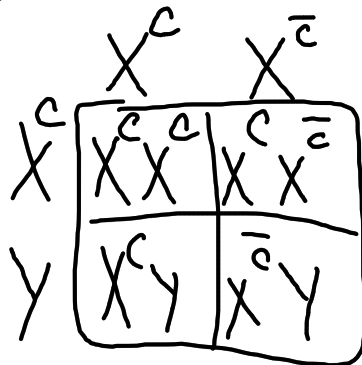

♂ - XY

color blindness

haemophilia

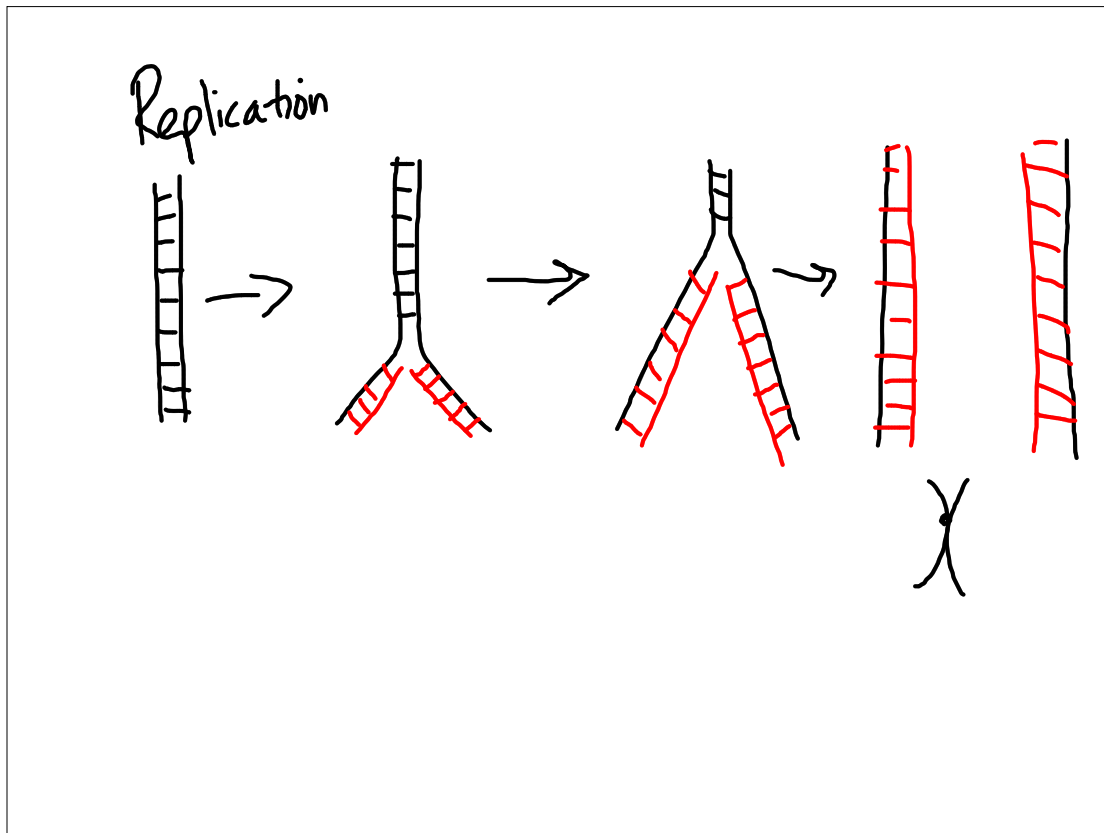

ALD

male patterned baldness
